

How do I **create and associate - providers?**

Use this document if your organization is one of the following types: Community and Social Services Centre, Dental Clinic, Hearing Health Clinic, Medical Centre (including Rehab Centres), Mental Health Program Clinic, Optometry Clinic or Pain Centre. You now have the option to submit bills for your providers and have the payment sent directly to them if you wish. Eventually, it will become mandatory for your organization to specify the provider name when submitting your bills. To prepare for this, we encourage you to follow the steps below to create and associate the providers who work at your organization.

Step 1: Gather your information.

Ensure you have your provider's first and last name and TELUS Provider ID if they have one. The TELUS Provider ID was included in the welcome email. It is also displayed under the **My Account** (👤) menu of the portal. You will also need their license information (Canadian, licensed providers only).

Step 2: Access the Providers link.

Log into the provider portal and select the **My Account** (👤) icon and then select the **Providers** link located under the **My Account** menu.

Step 3: Click + Add provider.

Click the + sign to display the fields in which to complete the provider's information.

Profile

First name: Megan
Last name: Freeway

TELUS provider ID (Optional): 123456789
Effective date: 2022-09-08

Roles and licenses

Role: Physiotherapist

License
The provider's license must be in the same province as the service address for the organization. To request the addition of a provider with a license from a different province, call TELUS support at 1-866-240-7492.

Country: CANADA
Province: Quebec

License issuer: Ordre professionnel de la phy...
License number: 123456
License date: 2005-09-13

Use the same format as in your license document including dashes, spacing, capital letters etc.

Add another role

Save changes

Step 4: Complete the provider's details.

You will need to enter the provider's first and last name, TELUS Provider ID (if available) and start date with your organization.

You will need to select the provider's role from the **Role** drop-down. If you cannot find their role, select **Misc. Practitioner** and enter their role in the **Role Description** field (not shown).

If the provider's role requires a license and they are located in Canada, you will also need to enter their license information.

Once you have entered all of the required information, select **Save changes**.

Step 5: TELUS Provider Management group approves your request.

Your request is now complete and has been transmitted to the TELUS Provider Management Group for approval. The new provider will be included in your provider list once the request is approved, in approximately ten business days.
